Detailed Report

Test: Login Test
Target: Chrome (v88.0.4324.182)
Application: Test Login

Application: test Login
Duration: 00:00:40.988
Result: Passed

Step #	Description	Comment	Duration	Result
1	Navigate to https://staging.enthuziastic.com/	Navigates the specified URL (Auto-generated)	00:00:10.809	Passed
2	Click Accept <Button> Metadata: [Element]: Accept [XPATH : //button[. = 'Accept']], [Message]: Element clicked,	Click on Accepting the Cookies	00:00:00.830	Passed
3	Click IMG <Image> Metadata: [Element]: IMG [XPATH : //a/img], [Message]: Element clicked,	Website is Properly Opened	00:00:00.822	Passed
4	Click IMG <Image> Metadata: [Element]: IMG [XPATH : //a/img], [Message]: Element clicked,	Click on this "Enthusiastic" Section then website must refreshed	00:00:00.722	Passed
5	Is Login / Register <Button> is clickable? Metadata: [Element]: Login / Register [XPATH : //button[. = 'Login / Register']],	This Button Must be Clickable	00:00:00.731	Passed
6	Click Login / Register <Button> Metadata: [Element]: Login / Register [XPATH : //button[. = 'Login / Register']], [Message]: Element clicked,	Form must Pop-Up where you have different Options to Login to the site	00:00:00.756	Passed
7	Does email <Textbox> contain ? Metadata: [Element]: email [CSSSELECTOR : [name='email']], [Message]: Element's text contains ", [Input]: text ← ""	Email Section Contains Text	00:00:00.770	Passed
8	Click email <Textbox> Metadata: [Element]: email [CSSSELECTOR : [name='email']], [Message]: Element clicked,	Email section is active	00:00:00.914	Passed
9	Does password <Textbox> contain ? Metadata: [Element]: password [CSSSELECTOR : [name='password']], [Message]: Element's text contains ", [Input]: text ← ""	Password Section also Contains Text	00:00:00.754	Passed
10	Click password <Textbox> Metadata: [Element]: password [CSSSELECTOR : [name='password']], [Message]: Element clicked,	Password Section is Active	00:00:00.985	Passed
11	Is Login <Button> is clickable? Metadata: [Element]: Login [XPATH : //button[. = 'Login']],	Checking for the button to be clickable	00:00:00.728	Passed
12	Click Login <Button> Metadata: [Element]: Login [XPATH : //button[. = 'Login']], [Message]: Element clicked,	Message "Please Fill out the field" in Email must appear	00:00:00.893	Passed
13	Click Login <Button> Metadata: [Element]: Login [XPATH : //button[. = 'Login']], [Message]: Element clicked,	Message "Fill out the Field" in email must appear	00:00:00.696	Passed
14	Click email <Textbox> Metadata: [Element]: email [CSSSELECTOR : [name='email']], [Message]: Element clicked,	You will be able to write your email	00:00:00.734	Passed

15	Type ss in email <Textbox>	writing the random text in the email section	00:00:00.773	Passed
Metadata: [Element]: email [CSSSELECTOR : [name='email']], [Message]: Text typed, [Input]: keys ← "ss"				
16	Does email <Textbox> contain ?	Give the random alphabet in the Email Section	00:00:00.666	Passed
Metadata: [Element]: email [CSSSELECTOR : [name='email']], [Message]: Element's text contains "", [Input]: text ← ""				
17	Click Login <Button>	Message "Please Include the @ in the email" must appear	00:00:00.769	Passed
Metadata: [Element]: Login [XPATH : //button[. = 'Login']], [Message]: Element clicked,				
18	Click email <Textbox>	Entering the email with "@" . This email is random.	00:00:00.826	Passed
Metadata: [Element]: email [CSSSELECTOR : [name='email']], [Message]: Element clicked,				
19	Type ss@gmail.com in email <Textbox>	Entering the random email in the email Section	00:00:00.828	Passed
Metadata: [Element]: email [CSSSELECTOR : [name='email']], [Message]: Text typed, [Input]: keys ← "ss@gmail.com"				
20	Click Login <Button>	Message "Please Fill out the field" in Password must appear	00:00:00.804	Passed
Metadata: [Element]: Login [XPATH : //button[. = 'Login']], [Message]: Element clicked,				
21	Click password <Textbox>	Entering the Random password in the Password section with less than 8 Characters	00:00:00.836	Passed
Metadata: [Element]: password [CSSSELECTOR : [name='password']], [Message]: Element clicked,				
22	Type saaa in password <Textbox>	Random password is entered in the Password Section	00:00:00.823	Passed
Metadata: [Element]: password [CSSSELECTOR : [name='password']], [Message]: Text typed, [Input]: keys ← "saaa"				
23	Click Login <Button>	Message "Please Enter the Password with more than 8 Characters" must appear	00:00:00.803	Passed
Metadata: [Element]: Login [XPATH : //button[. = 'Login']], [Message]: Element clicked,				
24	Click password <Textbox>	Entering the Password with minimum 8 characters	00:00:00.763	Passed
Metadata: [Element]: password [CSSSELECTOR : [name='password']], [Message]: Element clicked,				
25	Type saaasadada in password <Textbox>	Password entered is Random and invalid	00:00:00.876	Passed
Metadata: [Element]: password [CSSSELECTOR : [name='password']], [Message]: Text typed, [Input]: keys ← "saaasadada"				
26	Click Login <Button>	Message "Username" and "Password" invalid must appear	00:00:00.800	Passed
Metadata: [Element]: Login [XPATH : //button[. = 'Login']], [Message]: Element clicked,				
27	Click email <Textbox>	Removing the Entered invalid email address	00:00:01.229	Passed

Metadata: [Element]: email [CSSSELECTOR : [name='email']], [Message]: Element clicked,

28	Click email <Textbox>	Entering the Valid and Signed Up Email	00:00:00.792	Passed
----	------------------------------	--	--------------	--------

Metadata: [Element]: email [CSSSELECTOR : [name='email']], [Message]: Element clicked,

29	Clear email <Textbox> contents	Clear username	00:00:00.938	Passed
----	---------------------------------------	----------------	--------------	--------

Metadata: [Element]: email [CSSSELECTOR : [name='email']], [Message]: Element cleared,

30	Type test@gmail.com in email <Textbox>	This is the Valid Email Entered	00:00:00.827	Passed
----	--	---------------------------------	--------------	--------

Metadata: [Element]: email [CSSSELECTOR : [name='email']], [Message]: Text typed, [Input]: keys ← "test@gmail.com"

31	Click Login <Button>	Username and Password Incorrect must appear	00:00:00.672	Passed
----	-----------------------------	---	--------------	--------

Metadata: [Element]: Login [XPATH : //button[. = 'Login']], [Message]: Element clicked,

32	Click password <Textbox>	Erasing the invalid password from password section	00:00:01.218	Passed
----	---------------------------------	--	--------------	--------

Metadata: [Element]: password [CSSSELECTOR : [name='password']], [Message]: Element clicked,

33	Clear password <Textbox> contents	Clear the password field	00:00:00.953	Passed
----	--	--------------------------	--------------	--------

Metadata: [Element]: password [CSSSELECTOR : [name='password']], [Message]: Element cleared,

34	Click password <Textbox>	Your Password is now erased	00:00:00.806	Passed
----	---------------------------------	-----------------------------	--------------	--------

Metadata: [Element]: password [CSSSELECTOR : [name='password']], [Message]: Element clicked,

35	Type *** in password <Textbox>	Entering the valid Password for the respected email address	00:00:00.776	Passed
----	--	---	--------------	--------

Metadata: [Element]: password [CSSSELECTOR : [name='password']], [Message]: Text typed, [Input]: keys ← "****"

36	Click Login <Button>	Now your email and password must be logged-in	00:00:00.842	Passed
----	-----------------------------	---	--------------	--------

Metadata: [Element]: Login [XPATH : //button[. = 'Login']], [Message]: Element clicked,

37	Is te <Div> present?	To verify whether USer logo is present or not	00:00:01.061	Passed
----	-----------------------------	---	--------------	--------

Metadata: [Element]: te [XPATH : //div/div[. = 'te']], [Message]: Element is present,

Test: Switch To Hosting
Target: Chrome (v88.0.4324.182)
Application: Non Admin User Course Creation
Duration: 00:00:03.011
Result: Passed

Step #	Description	Comment	Duration	Result
1	Is te <Div> is clickable?	This is the Non admin User Account	00:00:00.608	Passed

Metadata: [Element]: te [XPATH : //div/div[. = 'te']],

2	Click te <Div>	Click on your account at the top right corner and the drop down menu will appear.	00:00:00.808	Passed
Metadata: [Element]: te [XPATH : //div/div[. = 'te']], [Message]: Element clicked,				

3	Is Switch to Hosting <Button> is clickable?	Checking for the Switch to Hosting button to be clickable.	00:00:00.695	Passed
Metadata: [Element]: Switch to Hosting [XPATH : //button[. = 'Switch to Hosting']],				

4	Click Switch to Hosting <Button>	While Click on the Switch to Hosting Button you will move to the Create session page	00:00:00.883	Passed
Metadata: [Element]: Switch to Hosting [XPATH : //button[. = 'Switch to Hosting']], [Message]: Element clicked,				

Test: Create Session
Target: Chrome (v88.0.4324.182)
Application: Create Session
Duration: 00:00:02.258
Result: Passed

Step #	Description	Comment	Duration	Result
1	Is + Create Sessions <Button> is clickable?	While clicking to the Switch to Hosting then the Create session page will appear and checking for the Create session Button is clickable or not.	00:00:01.377	Passed
Metadata: [Element]: + Create Sessions [XPATH : //button[. = '+ Create Sessions']],				
2	Click + Create Sessions <Button>	Click on the Create session then the drop down menu will appear and select the create for single session or you can select the Multi sessions.	00:00:00.870	Passed
Metadata: [Element]: + Create Sessions [XPATH : //button[. = '+ Create Sessions']], [Message]: Element clicked,				

Test: Basic Info for Multi
Target: Chrome (v88.0.4324.182)
Application: MultipleSessionTests
Duration: 00:00:15.610
Result: Passed

Step #	Description	Comment	Duration	Result
1	Navigate to https://staging.enthuziastic.com/	Navigates the specified URL (Auto-generated)	00:00:00.000	Disabled
Metadata: [Message]: Step disabled.,				

2	Is Multiple Sessions <Link> is clickable?	Checking for the Multiple Session is Clickable or not for creating the Multiple Course Creation.	00:00:00.703	Passed
Metadata: [Element]: Multiple Sessions [XPATH : //a[. = 'Multiple Sessions']],				
3	Click Multiple Sessions <Link>	Click on the Multiple Session then a form will appear and fill the form with the necessary information for your course.	00:00:00.842	Passed
Metadata: [Element]: Multiple Sessions [XPATH : //a[. = 'Multiple Sessions']], [Message]: Element clicked,				
4	Does Course Creation <Div> contain Course Creation ?	Does the Course Creation Section contains the Text Course Creation.	00:00:03.930	Passed
Metadata: [Element]: Course Creation [XPATH : //div[. = 'Course Creation']], [Message]: Element's text contains 'Course Creation', [Input]: text ← "Course Creation"				
5	Does Basic Info <Div> contain Basic Info ?	Checking for the Basic info text is present or Not.	00:00:00.717	Passed
Metadata: [Element]: Basic Info [XPATH : //div[. = 'Basic Info']], [Message]: Element's text contains 'Basic Info', [Input]: text ← "Basic Info"				
6	Does Give your course a title * <label> contain Give your course a title * ?	Checking for the Course Title Section.	00:00:00.738	Passed
Metadata: [Element]: Give your course a title * [XPATH : //label[. = 'Give your course a title *']], [Message]: Element's text contains 'Give your course a title *', [Input]: text ← "Give your course a title *"				
7	Type Tes DemoCourse in Type course title here <textarea>	Typing the Wrong text in Course Title Section.	00:00:00.918	Passed
Metadata: [Element]: Type course title here [CSSSELECTOR : #title], [Message]: Text typed, [Input]: keys ← "Tes DemoCourse"				
8	Clear Type course title here <textarea> contents	Clearing the Content in the Course Title Section	00:00:00.835	Passed
